

Fairfax iiNet in VoD move

PERTH — Perth ISP iiNet yesterday put the final gloss on a stellar week when it announced a video-on-demand agreement with **Fairfax Digital** and Singapore's **Anytime** group.

The deals will see iiNet act as the exclusive ISP promotional and billing partner for a new VoD service featuring content from Anytime.

The deal also includes additional promotion for iiNet through the Fairfax Digital network.

The announcement follows Tuesday's launch of **Hutchison's X-Series** mobile Internet service at which a new alliance with iiNet was also unveiled.

Under the latest deal, if an X-series customer signs up their home broadband connection with iiNet they will receive a credit of \$100 to their home broadband account and another \$50 if a phone or VOIP is added at the time of sign-up.

Shares in iiNet rose two cents up to \$1.15 in afternoon trading yesterday.
